RESTOCK SIGNALS

LOW STOCK: Shampoo 400ml (PER-301) - closing 102 units; reorder point 148 units.

DATA DEFINITIONS AND QUALITY CHECKS

Net sales = units sold x unit price - discounts - return refunds. Returns are refunded at listed unit price in this sample.

Closing stock = opening + received - units sold + saleable returns - damaged. LOW STOCK means closing <= SKU reorder point.

Each SKU's opening stock equals the previous month's closing stock (August and September). The data is fabricated, not live POS data.
